

In the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application.

1. (original) A magnetic shield panel comprising: a magnetic shield member made of magnetic material; and a translucent plate member to which the magnetic shield member is attached.
2. (original) A magnetic shield panel according to claim 1, wherein the magnetic shield member is held by a translucent heat insulating member.
3. (currently amended) A magnetic shield panel according to claim 1 ~~or 2~~, wherein a radio wave shield member made of electrically conductive material is attached to the translucent plate member.
4. (currently amended) A magnetic shield panel according to ~~one of claims 1 to 3~~ claim 1, wherein the number of the translucent plate member is not less than two.
5. (currently amended) A magnetic shield panel according to ~~one of claims 1 to 4~~ claim 1, wherein the magnetic shield member is arranged substantially in parallel with the direction of a magnetic field.
6. (currently amended) A magnetic shield panel according to ~~one of claims 1 to 5~~ claim 1, wherein engaging portions are provided at both end portions of the magnetic shield member, and the magnetic shield member is formed into a substantial I-shape or Z-shape.
7. (original) A magnetic shield panel comprising: a magnetic shield member made of magnetic material; and a metallic plate to which the magnetic shield member is attached.
8. (original) A magnetic shield panel according to claim 7, wherein the magnetic shield member is held by a heat insulating member.

9. (original) A magnetic shield panel according to claim 8, wherein the heat insulating member is made of refractory material.

10. (currently amended) A magnetic shield panel according to ~~one of claims 7 to 9~~ claim 7, wherein the number of the metallic plate is not less than two.

11. (currently amended) A magnetic shield panel according to ~~one of claims 7 to 10~~ claim 7, wherein the magnetic shield member is arranged substantially in parallel with the direction of a magnetic field.

12. (currently amended) A magnetic shield panel according to ~~one of claims 7 to 11~~ claim 7, wherein engaging portions are provided at both end portions of the magnetic shield member, and the magnetic shield member is formed into a substantial I-shape or Z-shape.

13. (currently amended) A magnetic shield panel according to ~~one of claims 7 to 12~~ claim 7, wherein the metallic plate is made of material selected from a group including iron, copper and aluminum.
